Company Overview

WHO WE ARE

02

Reef View Construction Limited is an Auckland-based building company delivering reliable residential and light commercial construction services across Auckland. With over 10 years of industry experience, we provide practical building solutions with a strong focus on quality workmanship, clear communication, safe delivery and dependable project outcomes. Our services include Design & Building, Commercial & Renovations, Waterproofing & Roofing, and Compliance & Property Maintenance. We support clients from initial discussion and planning through to construction, maintenance and handover, ensuring every project is managed professionally and completed to a high standard. Reef View Construction is committed to building long-term client relationships through trust, transparency and consistent service. We work with qualified professionals and follow New Zealand building standards, health and safety practices, and project-specific requirements to deliver work that is safe, durable and built to last.

10+

Years of experience

Auckland

Primary service area

LBP

Trade-qualified support

End-to-End

Practical project delivery

Reliable Communication

Clear updates and transparent coordination.

Buildable ideas suited to site and budget.

Design & Building

End-to-end support from concept coordination and buildability review through to construction delivery and project completion.

Commercial & Renovations

Alterations, upgrades and additions that improve function, comfort and long-term value for existing homes.

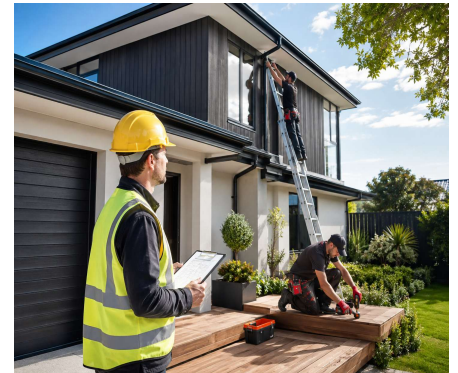

Waterproofing & Roofing

Waterproofing preparation, roof-related repair support, maintenance and exterior improvement works.

Compliance & Property Maintenance

Practical compliance support, consent coordination, documentation assistance and ongoing repair/maintenance services.

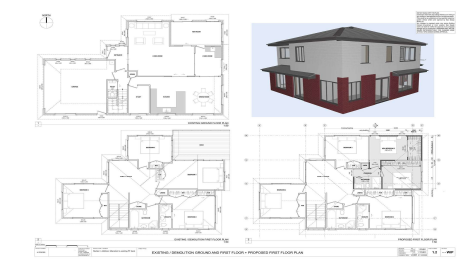

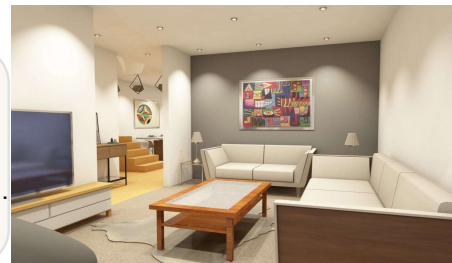

Concept-led planning and buildable design presentation

Project Highlights

- 1 Concepts and spatial planning presented clearly for client understanding.
- 2 Design thinking aligned with practical construction delivery.
- 3 Strong visual communication supports faster decisions and smoother planning.
- 4 Suitable for clients seeking design-to-build support under one roof.

Project Highlights

- 1 From foundations and framing through to completed commercial presentation.
- 2 Supports staged construction management across key trades and milestones.
- 3 Focus on quality, programming, safe access and site coordination.
- 4 Well suited to standalone dwellings and Light Commercial developments.

Exterior works, remediation and property care support

Highlights

- 1 Roof-related and exterior work supported with practical site solutions.
- 2 Before/after outcomes show visible improvement in building condition.
- 3 Property maintenance helps extend asset life and reduce future repair risk.
- 4 Suitable for targeted repair programmes and ongoing maintenance support.

Compliance & Property Maintenance

CASE STUDY

07

Property inspections, repairs, maintenance and compliance-focused building support.

Project Highlights

- 1 Property inspections and repair needs reviewed clearly.
- 2 Maintenance works planned to keep properties safe and functional.
- 3 Compliance support provided through documentation and practical site coordination.
- 4 Suitable for ongoing repairs, upgrades and property care.

1

Consult

Understand scope, site constraints, client priorities and required outcomes.

2

Plan

Review buildability, programme, resources, safety and compliance requirements.

3

Build

Deliver the work with coordination, quality control and regular communication.

4

Handover

Final checks, defect close-out and ongoing support where needed.

Why clients choose Reef View
